### Investing.

If you are interested in investing in the Saint John Community Loan Fund, please indicate the proposed amount of your investment, the period you would like to invest for, and the rate of return you will be comfortable with. We have received investments in the range of \$250 to \$50,000, so no investment is too small or too large. The average rate of return chosen by investors is 1.5% but we offer up to 3%. You may also choose to direct your investment to a specific lending activity - business, employment or housing loans.

*No investor has lost a penny in our ten plus years of operation. We insure this by setting aside a reserve equal to 30% of our loans outstanding.*

### Donating.

Donations also support our work and receive a charitable tax receipt. Individual donations are generally put into our loan loss reserve to help build capital and protect our investors. Each dollar leverages five in loans. You may also choose to donate directly to one of the loan pools - for business, employment or housing loans.

Please tell us how much you would like to donate and to which activity.
